

Hi everyone,

Our last few days of school before two weeks of holiday. Just a reminder that our Swim School program is the FIRST week back and is a one week program. Students will not only need to be very organized with swimmers, sunscreen, towel and plastic bag for wet items, but will also need to pack recess and lunch each day PLUS a water bottle. There is NO staff development day on the Monday, as in previous terms. School starts as per normal on the Monday.

Yesterday, we had students in Stage One, from the other schools for our Science Day. We had a lot of fun being scientists (and made lots of mess) and were quite challenged by the experiments we did. Problem solving was on the agenda for our balloon cars and racing ladybugs, while the kaleidoscopes and chemical reactions were also fascinating.

Parents who have come in over the past week for the student-led conferences, would have been introduced to our Science challenge of buildings. On Friday, we hope to test our designs for environmental stability- earthquake, minor flood, hail and wind. I've been quite impressed with the design features students have used and looking forward to testing the results.

As I finish this newsletter, on behalf of all the staff, I would like to express our deepest sympathy to the Partridge family on their recent loss. Our love and thoughts are with you during this difficult time.

regards

Mrs Bath
