

Hi everyone,

This is the last week in November- where did that month go to!

On Friday we will have a Christmas themed day and students can wear Christmas outfits or colours. We will be making Christmas cards, decorations for the tree and other activities to start off the festive season.

Swimming

A wonderful time at our Intensive Swimming Program at Trinity Pool last week. Swimming teachers commented on the lovely manners and behavior that our students exhibited. We were also impressed by the persistence of students during activities and the level of skills they developed. Students will receive their certificates shortly.

New School Improvement Plan

Yesterday teachers met to discuss data and evidence we have been collecting to determine the future directions for our school. This also includes looking at effective strategies for school improvement that is relevant to our current context. Next Monday, we will be discussing the Strategic Directions that will inform our schools improvement journey in learning, teaching and leading. We will then invite parents to look at our new School Improvement Plan for the next four years.
