

Hi everyone.

Athletics Carnival

One very important change to Thursday Athletics Day.

There will be NO CANTEEN on Thursday at the event. Unfortunately, The Channon P and C are not able to go ahead with the canteen on Thursday at Eureka due to a change of plans.

All students (and teachers) must bring their own food and drink on Thursday.

A general reminder for all students to wear suitable shoes for athletics, wear school uniform and bring a jumper. We will take our school hats from school.

Personal Development

Child Protection- I am still waiting for some forms to return. Could you please send these in as soon as possible.

Health and PE

Race Around Australia- we are almost at Newcastle in our PE journey around Australia. I think the Athletics Carnival will definitely boost our journey around as well!

This term, students will also be learning basic first aid skills from a range of videos and activities as part of our safety unit.

Students in K-2 will learn to recognize an emergency and how to call 000, with students from Year 3-6 understanding how to respond – recognize different types of insect bites and being aware of what DRSAB means.

This week:

Wednesday breakfast

Athletics Carnival

Thursday August 4- NO CANTEEN on this day

Friday August 5

Coming Up

School Photos

August 10

It is really important, especially where we live, that students recognize safe/unsafe issues and what to do. Knowing how to call 000 and what to do next can make such a difference. Lots of times we have watched stories on how children helped at home by simply knowing how to call 000 and where they live.

Art

A few pictures of our budding artist's work from last week. They have started their own version of Andy Warhol's PopArt. We will be painting these this week.

Objects on a tray.

I spy with my little eye, something beginning with P!

Regards

Mrs Bath

Collaborative

Working together
Cooperating
Sharing ideas, skills & knowledge

Learning Dispositions are habits of the mind, which we develop in order to learn.

Learning Dispositions are like strategies, as they are the "HOW" we learn.

So far you have been introduced to these Learning Dispositions:

Being Attentive

Taking Ownership

Embracing Challenges

Problem Solving

Do you find yourself using these skills on a daily basis? Are you becoming aware of them within your activities? Are you communicating with your students about them?

This week we'd like you to think about **Collaborative Learning**. Collaboration is all about working together, sharing ideas, turn taking, and using skills from each member of a group, who are working as a team.

At school we are a team and within it we have group activities. Families are teams too! Encourage everyone to work well together. Go Collaborate!
